

Chris Grollnek

Active Shooter Prevention Expert

About Chris

Chris Grollnek is internationally recognized as one of the leading experts and authorities on the phenomenon of “active shooter” events and prevention. Chris’ expertise is in high demand across the nation and across industries. Chris provides strategic advisory services for the highest levels of government and the most senior executives in the country.

Why Choose Chris?

Chris is one of just a few legacy experts who have dealt with active shooter situations in real time. His involvement has enabled him to identify and inform the types of strategies that can reduce injury and lives lost. Chris was recently invited to create and film an active shooter prevention video designed to train the entire Department of Justice semi-annually.

CHRIS GROLLNEK

THE NATION'S GO-TO ACTIVE SHOOTER EXPERT

Chris is on a mission to reduce fear through education and training. Chris' various speaking engagements are cutting-edge talks that have been developed in alliance with the Federal Government Department of Justice.

Chris presents strategies and tactics that are prevention focused. Chris' new P.R.O. Model is focused on prevention first and based on what he calls, "The 4 Ps" – People, Place, Police, and Perpetrator.

- **People:** The individuals inside an active shooter event are THE first responders.
- **Place:** Where to go and what to do. Depends upon the place where the active shooter event could occur.
- **Police:** Understand that the police will not be there for at least 8-minutes. And history tells us that police will not likely make contact with individuals inside an event for at least 20 minutes.
- **Perpetrator:** Signs to identify a potential active shooter. See something. Say something.

ASPP P.R.O. MODEL

Prevention, Response, Options is based on the following three principals.

- ▶ **Principle 1** – Reeducate everyone that PREVENTION is, in fact, possible.
- ▶ **Principle 2** – Revamp and evolve RESPONSE strategies based on new learnings from recent events.
- ▶ **Principle 3** – Optimize the outcome (reduce/eliminate deaths and physical injuries) by providing and training customized best OPTIONS to our clients and their people.

CONSIDERING HAVING CHRIS SPEAK AT YOUR NEXT EVENT? SUBMIT YOUR INQUIRY TODAY!

“IT’S TIME WE TEACH A REASONABLE APPROACH TO ACTIVE SHOOTER PREVENTION AND RESPONSE THAT IS AS EASY TO UNDERSTAND AS STOP, DROP, AND ROLL. IT’S TIME WE LIVE IN A WORLD WITHOUT WORRY.”

CHRIS GROLLNEK
