

Active Shooter Prevention Training

Developed for the United States Government

Training for the Healthcare Industry

The primary goal of the ASPP training program is a knowledge transfer of best practices from real live active shooter events.

- Prepare your healthcare facility for the unthinkable
- Overcome the belief that – “It Will Never Happen Here!”
- Empower everyone to reduce injury and save lives during active shooter events
- Assist in identifying the warning signs of an active shooter

Why Choose ASPP?

Our team, led by Active Shooter Expert Chris Grollnek, is composed of experienced FBI/HRT, CIA, and military specialists who offer unparalleled active shooter preparedness training. Our approach is not only highly informative, but also easy to understand and implement, making it accessible to individuals of all skill levels. Make the smart choice and select the team with the most experience.

THE P.R.O. MODEL PREVENTION. RESPONSE. OPTIONS.

Introducing the P.R.O. Model, a revolutionary training program designed to prioritize prevention in active shooter situations. Developed with the United States Department of Justice, P.R.O. focuses on the 'The 4 Ps' – People, Place, Police, and Perpetrator.

ASPP P.R.O. MODEL

Prevention, Response, Options is based on the following three principals.

- ▶ Emphasize the importance of PREVENTION and educate people on how it is a viable option
- ▶ Adapt and improve RESPONSE strategies by incorporating new insights gained from recent incidents
- ▶ Achieve optimal results by reducing or eliminating deaths and injuries through providing customized training OPTIONS to clients and their staff

P.R.O. THE MODEL IS A GAME CHANGER IN ACTIVE SHOOTER PREPAREDNESS. DON'T WAIT, PROTECT YOURSELF AND YOUR HEALTHCARE FACILITY.

ABOUT ACTIVE SHOOTER PREVENTION PROJECT

The Active Shooter Prevention Project (ASPP), founded by Chris Grollnek, is dedicated to providing the tools and training necessary to prevent active shooter incidents. The team is composed of top law enforcement and security professionals from around the world.
