PREVENTION STARTS BEFORE VIOLENCE BEGINS

ACTIVE SHOOTER PREVENTION PROJECT™

Chris Grollnek, M.S.

Chairman, Active Shooter Prevention Project™

The Active Shooter Prevention Project™ (ASPP™) P.R.O. Model™ (Prevention. Response. Options.) offers a prevention-first operating framework designed to support earlier awareness, clearer coordination, and more measurable readiness over time. Rather than focusing solely on response, the model emphasizes practical steps organizations can take to strengthen preparedness, align leadership and operations, and create shared accountability.

Through a structured 30-, 60-, and 90-day approach, ASPP™ P.R.O. helps organizations translate intent into tangible deliverables - establishing a thoughtful path toward Destination #NEVERHERE™, where prevention is treated as a sustained organizational capability rather than a reactive obligation.

ASPP COMMUNITY OF EXPERTS

The ASPP Community of Experts consists of a group of mission-focused individuals who are leading the PREVENTION first charge. ASPP's values and goals have aligned with several companies that offer a wide array of products and services. These resources have been incorporated into the P.R.O. Model™ as viable options:

Our team believes in an all-hazards approach to emergency preparedness and recognizes there is no "magic pill" to solve all problems the same way. We are educating the public and helping organizations succeed in preventing and responding to critical incidents using a layered approach while incorporating real-world solutions.

Safeware is honored to be part of the ASPP Community of Experts, a group of mission-focused individuals who are leading the PREVENTION first charge.

ASPP LEADERSHIP & ADVISORY COUNCIL

Chris Grollnek, M.S.

Chairman, Active Shooter Prevention Project™

Chris Grollnek is a globally recognized expert in active shooter prevention, public safety, and strategic leadership. With 35 years of experience spanning executive, C-Suite, and Board roles, he has built a reputation for translating complex challenges into actionable solutions. As a thought leader and industry pioneer, Chris has been instrumental in reshaping security and safety protocols, advocating for a proactive, prevention-first approach to preventing Domestic Terrorism and through an all-hazard approach. His expertise extends across operations leadership, M&A strategy, and organizational transformation.

Dave Glaser

Major General, US Army (Retired), Strategic Leadership Consultant (TX)

Major General (Ret.) David Glaser brings more than 36 years of military, homeland security, strategic leadership, and organizational transformation experience to ASPP. Throughout his career, he has led complex operations and large-scale organizations at the tactical, operational, and strategic levels, including command assignments in combat and senior leadership roles focused on security, resilience, crisis response, workforce development, and institutional strategy.complex security and operational challenges.

Hannah V. Betz

Executive Intern for "Domestic Terrorism" ASPP, LLC

Glenn Norling

Senior Principal Managing Director, Community of Experts

Gary Connor

Brigadier General, USAF (Retired), Aerospace & Defense Consultant (AL)

Dan Zilinski

Subject Matter Expert Cybersecurity Risk Management (NY)

ASPP COMMUNITY OF EXPERTS - ACTIVE AGGRESSOR TRAINING / HELP SOLUTIONS

TBR CONSULTING - TRAIN. BE READY

TBR specializes in professional threat assessments, workplace violence prevention strategies, and legally compliant training programs, all aligned with ASPP's national framework, the P.R.O. Model™ (Prevention, Response, Options).

www.trainberready.com

VGI CONSULTING & TRAINING

Our dedicated team of experts is committed to delivering superior services focused on thorough threat assessment, proactive threat prevention, and effective threat response strategies, all backed by years of extensive field experience and a proven track record of success.

www.vecchigroup.com

VIOLENCE PROTECTION HOTLINE

Our goal is simple but urgent: to reduce violence by intervening early and responding quickly to concerns. We support not only people who are worried about someone else's behavior, but also individuals who are frightened by their own thoughts and want help before harm occurs.

SHIFT™ HR COMPLIANCE TRAINING

ASPP·PRO —E PLURIBUS UNUM— #NEVERMORE

Active Shooter & Active Threat Preparedness Training

Every School
Has a Plan.
Not Every School
Is **Prepared.**

PREPARE PEOPLE - NOT JUST PLANS

Schools invest significant time developing emergency plans, conducting drills, and establishing procedures.

Plans establish procedures.
Training prepares people.

SHIFT's **Active Shooter & Active Threat Preparedness** course equips educators and staff to recognize warning signs, strengthen situational awareness, and make informed decisions in high-stress situations. Through practical, behavior-focused learning—not fear-based tactics—the course prepares educators to make informed decisions when every moment matters.

20 Minutes Self-paced | Mobile Friendly | WCAG 2.1 AA | English, Spanish (Others available) | Hosted by SHIFT or your LMS

DEVELOPED IN COLLABORATION WITH CHRIS GROLLNEK

Nation's Leading Active Shooter Prevention Expert

Creator of the ASPP P.R.O. Model™, a prevention framework selected by the U.S. Department of Justice as "A" national standard for active shooter prevention training. For more than three decades, Chris has helped schools, law enforcement, and organizations strengthen prevention, preparedness, and decision-making through practical, prevention-focused training.

THIS COURSE HELPS EDUCATORS AND STAFF

- **Recognize** Warning Signs
- **Strengthen** Situational Awareness
- **Build** A Culture of Preparedness
- **Make Better Decisions** Under Pressure
- **Respond** With Greater Confidence

PREPAREDNESS STARTS WITH SHIFT

SHIFT develops expert-led training that prepares people for the moments where decisions matter most. Built with nationally recognized subject matter experts and grounded in behavior-focused learning, our courses help organizations strengthen preparedness through better awareness, better judgment, and better decisions.

SAFEWOOD DESIGNS
BULLET RESISTANT SCHOOL STRUCTURES

SAFEWOOD DESIGNS

Unfortunately, shootings have become more prevalent in recent years and the call for better safety and security in schools has risen dramatically. Our experience and craftsmanship allow us to provide extraordinary protection at key thresholds throughout school buildings, without compromising the current structure or décor.

Presenting a "lock down, safe house" or "prison" looking building façade garners fear and discomfort. Our system of components and materials are based on years of custom built solutions that integrate bullet resistant products for bullet resistant schools. This system comprises of doors, wall panels, SafeShutters™, SafeSlideouts™, windows, door locking systems and furniture that all seamlessly integrate with an existing building structure and its features. This is vitally important to maintain an environment that is not only safer and more secure, but remains a warm and welcoming learning environment.

SAFE LEARNING SPACES

SafeWood Designs' products and materials are specifically designed to blend in with the decor of the classroom to maintain a healthy and calming learning environment.

COVER AND CONCEALMENT

Cover and concealment is utilized synchronously with products and materials that block an attackers line of sight and creates a bullet resistant safe zone in the classroom.

DUAL PURPOSE

We specifically designed our SafeShutters™ to be dual purpose as both a protective shield and a useable teaching tool in the classroom as whiteboards and tackboards.

BULLETSHIELD

IMPACT SECURITY

Retrofit UL 752 Bullet Resistant Glazing Security Panels

Protect your building's most vulnerable asset—its glass—with BulletShield, the ultimate in ballistic-grade polycarbonate shields. Known as "Body Armor for Windows," BulletShield is expertly designed to deliver exceptional bullet resistance and unparalleled protection, safeguarding what matters most.

- » Professionally Installed Retrofit System
- » UL 752 Standard Ballistic Protection
- » Cost-Effective Customization

The Incident

Tabletop Simulations

crisis response leader training

Crisis Response Leader Training (CRLT) stands as a trailblazer in safety and security simulation training.

Active Shooter Prevention Project ASPP PRO 2026 Endorsement

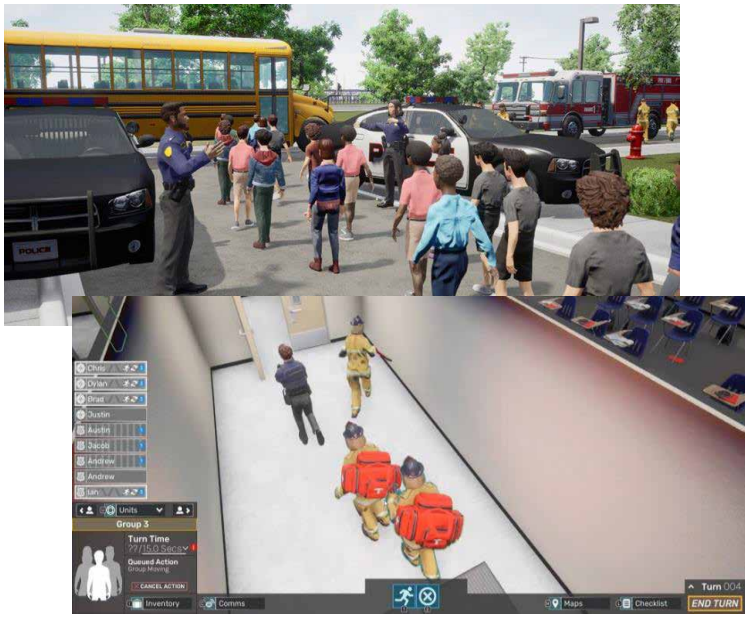

Prioritize School Safety with CRLT

Is ensuring the safety of your school community your primary concern? At CRLT, we offer a solution that brings together school resource officers, faculty, administrators, and local emergency responders to collaboratively prepare for a safer future.

Through our "The Incident" simulations, users can:

- Develop life-saving response strategies
- Foster holistic teamwork for stronger community resilience
- Enhance employee well-being and confidence
- Improve knowledge retention while ensuring compliance
- Increase the frequency of training sessions
- Optimize training investments

Choose CRLT for comprehensive school safety preparation that empowers your team and secures your campus.

Immersive and Stimulating Scenarios

- Designed for Emergency Managers, First Responders, and Employees
- Seamlessly Integrated Learning Management in 3D Scenarios
- Tailored Solutions, from Fundamental to Bespoke
- Flexibility: Choose Between Download or Cloud-based Services
- Unlimited Training Access Throughout the Year
- Benefit from Cost-efficient Bulk License Discounts

Experience engaging and thought-provoking scenarios that equip emergency managers, first responders, and employees with essential skills. Our integrated learning approach within dynamic 3D environments ensures efficient training solutions. With a range of customizable options and accessible delivery modes, CRLT empowers you to make the most of your training investment.

SCYLLA

The AI Detecting Threats Others Miss

At Scylla, our mission is to create the best possible AI tech for video surveillance. As a technology-first company, we are committed to leveraging our expertise to deliver unparalleled precision and reliability in our solutions. We not only prioritize safety but also develop highly precise and sensitive AI solutions for video surveillance and security at large. We believe that through innovation and technology, we can provide our clients with the tools they need to protect what matters most and improve operations of their organizations.

Solutions

- Military Grade Gun Detection System
- Knife Detection System
- XactID Face Recognition in the Wild
- Face Recognition - Auto Enrollment
- Aggresive Behaviour Detection
- Slip and Fall Detection System
- Suspicious Shopping Behaviour Detection
- Scylla Object Detection and Tracking
- Perimeter Intrusion Detection System
- Scylla Asteria™ Smart Edge Monitoring Solution
- Vehicle Identification and Tracking

For information contact Safeware Government Security Solutions - info@safewareinc.com

How it Works

Scylla processes video stream

Scylla processes video stream content to develop meaningful insights about the activity and objects.

Scylla's algorithm Charon verifies information

Scylla verifies the suspicious content in real-time through the Smart Decision-Making algorithm "Charon". Information on the object, activity or identity is retrieved and forwarded to the alerting protocols.

Scylla distributes alerts

Scylla distributes alerts in real-time to security response units through web and mobile channels with a relevant screenshot and complete information about the location and time of the incident.

Scylla works with

CCTV Cameras

UAV Cameras

Bodycams

Alcatraz AI - Facial Authentication Access Control System

Reimagine your access control experience with Alcatraz. Our facial authentication solutions seamlessly combine enterprise-grade security and robust privacy with effortless access to create safer, smarter environments.

Alcatraz natively integrates with existing access control systems, offering effortless enrollment and authentication, while providing scalable, future-proof security through continuous updates and advanced features like tailgating detection.

Our award-winning facial biometric authentication device operates at the edge and is powered by machine learning and AI to deliver a rock-star level access control experience. Offers tailgating detection, video at the door, supports SIP based intercom, 3D liveness detection, and more in a single device. Seamlessly blends into your corporate environment and operates rain or shine.

For information contact Safeware Government Security Solutions - info@safewareinc.com

- Easy to integrate and deploy
- Effortless to enroll and authenticate
- Engineered to scale and evolve
- Privacy at the core
- Tailgating Detection
- Works in all conditions

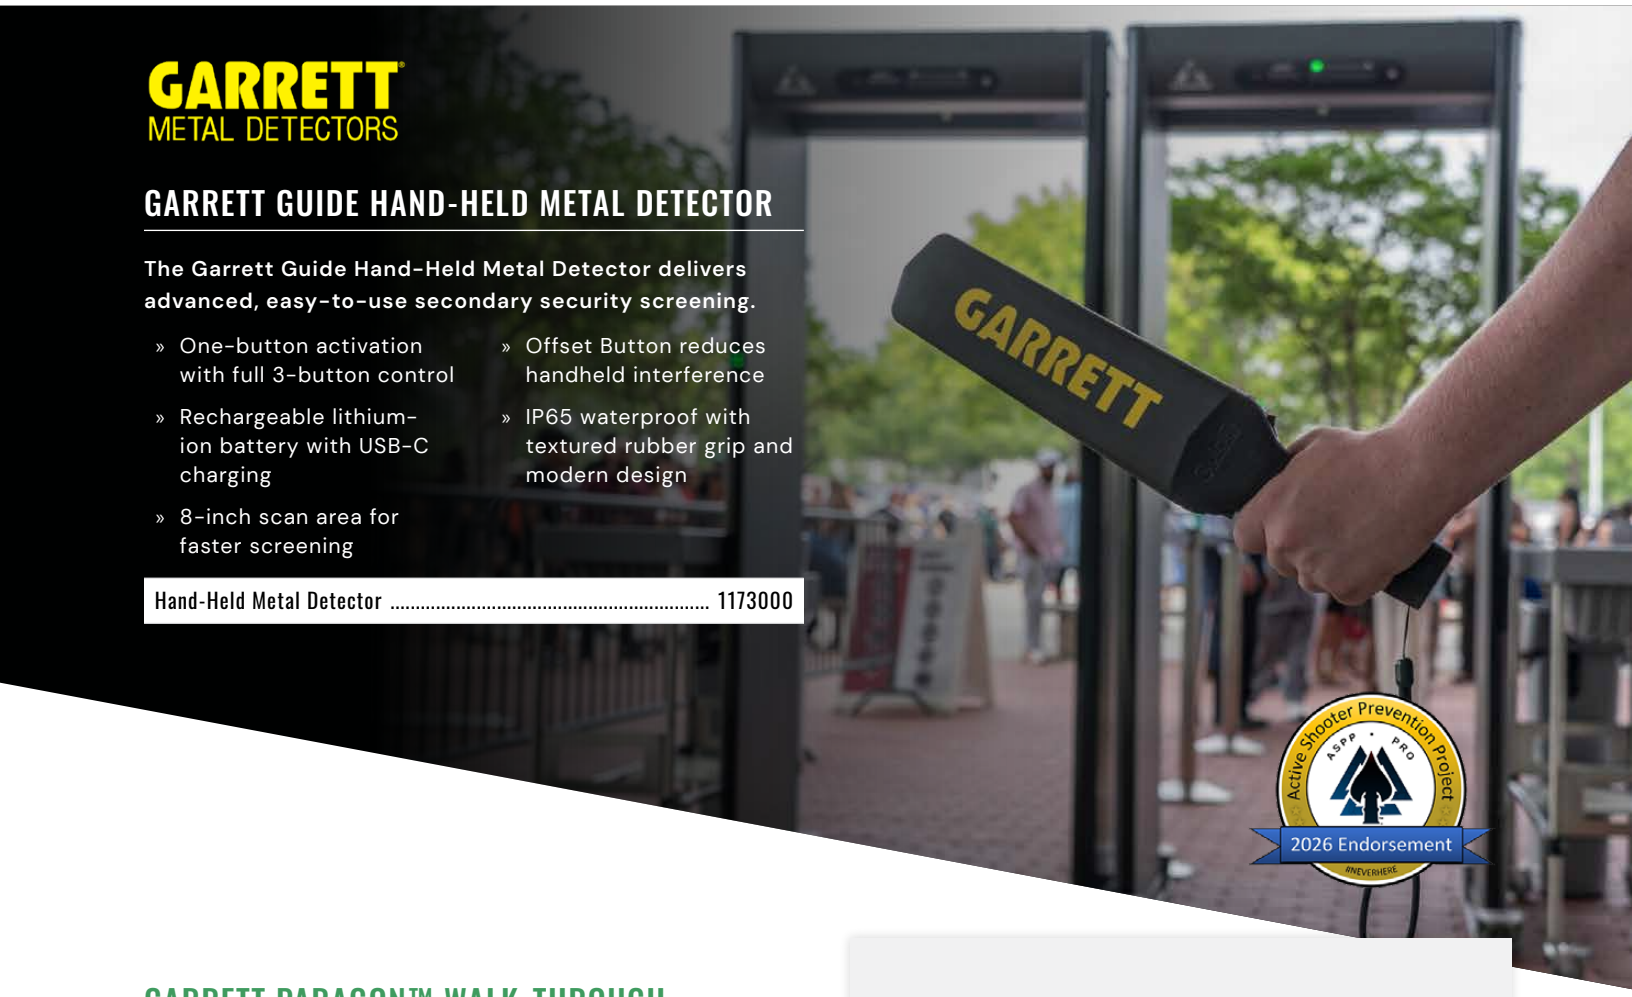

GARRETT
METAL DETECTORS

GARRETT GUIDE HAND-HELD METAL DETECTOR

The Garrett Guide Hand-Held Metal Detector delivers advanced, easy-to-use secondary security screening.

- One-button activation with full 3-button control
- Rechargeable lithium-ion battery with USB-C charging
- 8-inch scan area for faster screening
- Offset Button reduces handheld interference
- IP65 waterproof with textured rubber grip and modern design

Hand-Held Metal Detector	1173000

GARRETT PARAGON™ WALK-THROUGH METAL DETECTOR

The Garrett Paragon™ Walk-Through Metal Detector delivers advanced threat detection with 66 pinpoint detection zones, dual-sided scanning, and customizable sensitivity settings. Designed for high-security environments, it provides fast, accurate screening while maintaining smooth pedestrian flow.

- 66 pinpoint detection zones
- Dual-sided threat detection
- Customizable sensitivity settings
- High-throughput screening
- Intuitive touchscreen interface
- Network-ready connectivity
- Indoor and outdoor operation
- Advanced discrimination technology

Walk-Through Metal Detector	1172001
